ALARM RESPONSE OFFICER

MONITORING WHAT MATTERS MOST

Per Mar Security Services can give you peace of mind by not only monitoring your alarms but also by sending a uniformed security officer to respond and assess the situation. Our fully trained security officers will arrive at your property in a marked security vehicle after receiving alarm notification from our five-diamond certified Central Station.

IDENTIFY THE ALARM RESPONSE THAT FITS YOU

Guard Response - Our officer will do a perimeter check of your building to identify signs of forced entry and notify the police if necessary.

Enhanced Guard Response - Our officer will do a perimeter check of your building to identify signs of forced entry. If there are none, the officer will enter the building by retrieving a key from an installed Knox Key Vault and perform an interior check. If there are no signs of a break-in, the officer will secure the property, leave a note (unless a courtesy call is requested) and reset the alarm upon exit. If, at any point, there are signs of forced entry, Per Mar will immediately notify the authorities.

Call us today for a consultation.
