# VIDEO SURVEILLANCE

## **A picture is worth a thousand words!**

When you have a need to document someone or something, Video Surveillance is the way to go. Our team of professional investigators will work with you to obtain the information that is needed to solve your case.

The best way to solve your case is to show the people involved the facts. By having video documentation and support from a professional investigator, your case becomes very solid.

Our Professional Investigative Services team knows and understands the laws that protect privacy to ensure the gathering of information is legal and within the limits of the law.

Allow our team to set up mobile surveillance to assist you in monitoring who and what comes and goes. We will provide you with trained investigators, at a moment's notice, who know what to look for with quick turnaround to ensure prompt resolution.

Let us be your Private Eyes.
